## **Y**our Non-Hazardous and Special Waste Disposal Solution

Waste Management's approximately 300 disposal facilities employ the latest advances in landfill technology. From carefully selecting new landfill locations to installing state-of-the-art liners to expertly capping landfills that have been filled to capacity, Waste Management makes every effort to ensure its sites' operational integrity as well as the safety of surrounding ecosystems. As stewards of the environment, Waste Management sees that all its landfills are designed, constructed, operated and maintained to meet or exceed all local, state and federal regulations.

## Eco-Vista

Serving northwest Arkansas, Eco-Vista provides local businesses and industries with professional disposal services that are safe, convenient and meet the highest standards for environmental compliance.

## Containment Design

Eco-Vista utilizes a Subtitle D liner system, featuring both clay and High Density Polyethylene (HDPE).

## Leachate Collection & Treatment

At Eco-Vista, leachate is collected on site and transported to Springdale Wastewater Utility for treatment.

## Groundwater Monitoring

Groundwater quality is monitored by 22 wells which are sampled on a monthly to quarterly basis.

## Gas Management

Eco-Vista uses an active landfill gas collection system that consists of multiple active gas extraction wells and automated flare system.

## Security

Eco-Vista security is provided by six foot perimeter fencing and a single guarded entrance. The entrance is monitored by continuous video surveillance.

# ECO-VISTA LANDFILL

## About the Site

**Year Opened:** 1979

**Communities served by this location:**

Washington, Benton and Madison

**Size:** 110 Acres

**Capacity:** 11 million cubic yards

## Additional Services Provided

- Roll-Off Service
- Tote Bins
- Cutting Boxes

## Additional Site Information

**Industrial Waste Disposal** – Waste Management provides the highest level of industrial and special waste services backed with a written indemnification that protects customers from fines, lawsuits, sanctions or other legal/regulatory actions.

**Transportation** – Waste hauling is provided by Waste Management of Springdale.

**Waste Receipt Standard** – Waste Management has a defined waste screening protocol for each of its Subtitle D non-hazardous waste facilities. This waste screening procedure is used to protect both our employees and the environment. For all industrial and special waste streams, the generator or agent must complete a Generator's Non-Hazardous Waste Profile (available online at [www.WMDisposal.com](http://www.WMDisposal.com)) for review by our technical staff. Oftentimes, the profile must be accompanied by analyses, MSDS, or other pertinent information. Manifests or Waste Shipment Records must generally accompany the waste shipment.

## Community Partnerships and Involvement
