SIMI VALLEY LANDFILL & RECYCLING CENTER

Simi Valley Landfill & Recycling Center (SVLRC) is a state-of-the-art regional facility that provides safe and convenient non-hazardous disposal and recycling services for communities, businesses and industries serving Ventura County and adjacent communities.

WM's approximately 300 disposal facilities employ the latest advances in landfill technology. This facility is engineered with environmental protection systems that meet or exceed rigorous government regulations and are subject to highly regulated monitoring and reporting requirements. Systems include engineered liners and covers, leachate collection and removal, and landfill gas collection control.

Containment Design

SVLRC is designed with a composite liner system providing maximum protection to the environment that meets or exceeds Federal Subtitle D, California Code of Regulations and the State of California Regional Water Quality design standards.

Leachate Collection & Treatment

Leachate is the moisture that precipitates from municipal solid waste. Each lined containment system is equipped with a leachate collection system to remove the liquid for treatment and beneficial reuse or disposal.

Leachate recirculation provides beneficial uses such as acceleration of waste decomposition and waste degradation. This process, in turn, accelerates landfill gas production and promotes waste settlement that reduces maintenance of landfill cap components.

Groundwater Monitoring

The groundwater-monitoring program includes a network of more than 30 monitoring wells installed around the landfill. The locations of the wells are engineered to intercept groundwater beneath the landfill. Technicians monitor and sample wells on a regular basis with results submitted to state and local agencies.

Landfill Gas Management

SVLRC maintains a gas-monitoring and extraction program, which consists of extraction wells strategically engineered within the landfill. Located along the perimeter of the landfill, permanent probes are installed to monitor the entire depth of waste ensuring that the methane extraction system is functioning properly. The gas probes are monitored on a monthly basis and reported to state and local agencies.

Organics Processing Facility

This facility operates a greenwaste diversion program for residential, commercial, and industrial customers. Organic materials, such as grass, branches, leaves, weeds, and clean wood are ground up and processed for biofuel, mulch products, and landscape beautification efforts. This program also accepts food waste which is transported to other facilities for further processing.

Construction and Demolition Recycling (C&D) Facility

SVLRC's certified C&D recycling operation supports the State of California's mandated regulations requiring commercial and industrial customer projects to divert at least 50% of C&D materials from landfills.

Simi Valley Landfill & Recycling Center
2801 Madera Road
Simi Valley, CA 93065

First RNG Facility in California Operated by WM

The Simi Valley Renewable Natural Gas (RNG) Facility is a remarkable $100+ million investment and one of the largest of its kind at WM. The 30,000 square feet RNG facility converts landfill gas collected from the Simi Valley Landfill to lower-emission renewable natural gas (RNG). The RNG can be used to power communities and is expected to produce about 2.2 million MMBtu (million British thermal units) of RNG annually - enough to power 65,000 homes. The facility also displaces 100,000 tons of greenhouse gas emissions annually - the equivalent of removing 2,000 trucks from the road.

COMMUNITIES SERVED

Ventura County, Los Angeles County and surrounding communities

Reclaimed Water Recycling Program

In partnership with the City of Simi Valley's Sanitation District, SVLRC uses reclaimed water for dust control and irrigation. By using reclaimed water, the landfill saves enough drinking water for more than 100 homes.

Wildlife Habitat Conservation: Gold Certification

At Simi Valley Landfill Recycling Center, WM dedicated 500 acres to wildlife habitat conservation efforts with a population of local wildlife - including a barn owl program, use of falcons for natural bird abatement, and a 2-acre pollinator garden.

Acceptable Material

- Appliances
- Auto Shredder Residue
- Biosolids
- Carpet & Carpet Pad
- Clean Asphalt
- Clean Dirt
- Concrete
- Construction & Demolition (C&D) Debris
- Green & Wood Waste
- Industrial & Special Waste
- Livestock
- Mattresses
- Municipal Solid Waste (MSW)
- Tires
- Treated Medical Waste

Unacceptable Material

- Automobile Bodies
- Bio/Medical Waste
- Electronic Waste
- Empty Hazardous Material Containers
- Fluorescent Light Tubes & Ballasts
- Hazardous Waste
- Liquids
- Radioactive Materials
- Septic Tank or Chemical Toilet Waste
- Water Soluble Solids

2026 Free Landfill Days

For Residents of Simi Valley, Moorpark, Thousand Oaks & Westlake Village

Free Landfill Days

All Free Landfill Day events run from 10:00 a.m. to 4:00 p.m.

Simi Valley	Moorpark	Thousand Oaks	Westlake Village
March 15	**April 19**	April 19	**April 19**
May 17	**September 20**		June 21
July 19			**September 20**
October 18			

Free Landfill Days for Unincorporated Area Residents

Residents of the following unincorporated areas may participate only on their assigned community dates:

- **Moorpark Days:** Home Acres, Lexington Hills, Santa Rosa Valley
- **Simi Valley Days:** Santa Susana Knolls
- **Thousand Oaks Days:** Bell Canyon, Lake Sherwood, Lynn Ranch, Newbury Park, Oak Park

Check your designated date and plan ahead—don't miss your opportunity to dispose of waste for free!

Before You Arrive: Free Landfill Day Event Guidelines

To help your visit go smoothly and avoid delays, please:

- **Limit:** 2 loads per event
- **Bring:** proof of residency (driver's license or utility bill)

Please note:

- All loads are subject to inspection
- Maximum 5 passenger or pickup tires per visit; commercial/tractor tires at gate rate
- Contractor/commercial vehicles: standard rates apply unless pre-arranged

Items Not Accepted: Electronic waste, household hazardous waste (batteries, paints, liquids, chemicals, fluorescent tubes, TVs, computers, etc.)

Location & Hours

Simi Valley Landfill and Recycling Center: 2801 N. Madera Road Simi Valley, CA 93065 (805) 579-7267.

Hours: Monday-Saturday: 7:00 a.m. to 4:00 p.m. Third Sunday of each month: 10:00 a.m. to 4:00 p.m.

https://www.wm.com/location/california/ventura-county/landfill/index.jsp

Additional Free Community Events

Compost Giveaway: Simi Valley, Moorpark, and Westlake Village Residents

Bring your own shovel, containers, and proof of residency to your designated Free Compost Giveaway Day (**held in conjunction with Landfill Days—see bold dates**). Scoop up nutrient-rich compost—first come, first served, while supplies last!

E-Waste & Secure Shredding Events: Moorpark Residents Only

Held by appointment at the Moorpark Public Services Facility located at 627 Fitch Ave, Moorpark

Event Dates: January 17, May 16, September 19

Time: 9:00 a.m. to 2:00 p.m.

To schedule an appointment, call (805) 517-6294 or visit http://www.moorparkca.gov.

Accepted Items: TVs, computers, monitors, cell phones, printers, radios, VCRs/DVD players, tablets, fax machines, video game consoles and controllers.

Household Hazardous Waste Drop-Off Events

Moorpark Residents

Two convenient locations:

- **Camarillo:** Second Friday & Saturday of each month Call (805) 987-0717 for an appointment.
- **Simi Valley:** January 17, March 21, May 16, July 18, September 19, November 21

  Call (805) 583-6321 for an appointment.

If you live in unincorporated Moorpark (outside city limits), contact Ventura County HHW at (805) 658-4318 or visit http://www.vcpublicworks.org to schedule an appointment. For more details, visit http://www.moorparkca.gov

Simi Valley Residents

- **Simi Valley:** January 17, March 21, May 16, July 18, September 19, November 21. Call (805) 583-6321 to schedule an appointment. More information visit www.simivalley.org.

Common items accepted:

Aerosols, antifreeze, batteries, chemicals, fluorescent light tubes/CFLs, gasoline, medications/prescription pills, mercury thermometers, motor oil and oil filters, paint and paint products, pesticides and fertilizers, polishes and cleaners, sharps/needles in approved containers.

For a complete list of acceptable and non-acceptable items, visit your city's website.

Recycle Right®: Batteries, Paint & E-Waste

Battery Recycling

Recycle household batteries (AAA, AA, C, D, and 9-volt) at WM G.I. Industries or the Simi Valley Public Library.

Paint Recycling

Latex and oil-based paints can be recycled:

- At Household Hazardous Waste Drop-off Events (appointment required)
- Dunn Edwards – 50 W. Easy St. | (805) 520-9532
- Sherwin Williams – 3200 E. Los Angeles Ave (805) 527-5966

Electronic Waste Recycling

WM G.I. customers in Moorpark, Simi Valley, and Westlake Village may drop off electronic waste free of charge during normal business hours at:

195 W. Los Angeles Ave., Simi Valley

Monday–Friday, 8:00 a.m.–4:30 p.m.

(No business or commercial waste accepted)

The Simi Valley Chamber of Commerce also hosts periodic E-Waste events. Call (805) 526-3900 for details.

Simi Valley RNG Facility
Fact Sheet

First RNG Facility In California Operated by WM

BY THE NUMBERS

- **$100M+** Investment
- **Over 2.2M MMBtu** of landfill gas expected to convert to energy for sale/use annually
- **30,000** Facility square footage

ABOUT OUR OPERATION

The Simi Valley Renewable Natural Gas (RNG) Facility is a remarkable $100+ million investment and one of the largest of its kind at WM.

The Simi Valley RNG Facility converts landfill gas collected from the Simi Valley Landfill to lower-emission renewable natural gas (RNG). The RNG can be used to power communities as well as allocated to a portion of WM's heavy-duty natural gas collection fleet, the largest in the industry in North America.

Today, WM owns or hosts more than 20 RNG facilities across North America that convert landfill gas into pipeline-quality natural gas. WM is executing on plans to invest approximately $1.6 billion from 2022 to 2026 to build 20 new RNG facilities, one of which is the new Simi Valley RNG Facility.

Simi Valley RNG Facility displaces 100,000 tons of greenhouse gas emissions annually — the equivalent of removing 2,000 trucks from the road or powering 65,000 homes. When it comes to a more sustainable future, **WM is Driving Sustainability SM.**

WILDFLIFE HABITAT CONSERVATION: GOLD CERTIFICATION

At Simi Valley Landfill Recycling Center, WM dedicated 500 acres to wildlife habitat conservation efforts with a population of local wildlife – including a barn owl program, use of falcons for natural bird abatement, and 2-acre pollinator garden.

Beyond conservation efforts, SVLRC contributes over $200,000 annually to support city beautification, law enforcement training, litter removal, and vital community programs. With a dedicated community liaison and educational tours for over 1,000 visitors annually, SVLRC continues to strengthen local partnerships and promote environmental awareness throughout Ventura County.

North America's Leading Provider of Comprehensive Environmental Solutions

WE TURN WASTE INTO ENERGY

WM is helping to advance a lower-carbon, circular economy by harnessing landfill gas to generate renewable energy.

RENEWABLE ENERGY AT WM

As the largest landfill operator in North America, WM is a leader in the beneficial use of landfill gas. Landfill gas is widely recognized as a renewable fuel source that can aid companies in achieving decarbonization efforts. WM's RNG is pushed directly into natural gas pipelines, providing a lower-emission energy source for communities across North America.

By improving landfill gas recovery and measurement, we are also advancing our decarbonization efforts — helping to reduce our greenhouse gas emissions and supporting the larger energy transition from fossil fuels to renewable resources. Our sophisticated measurement technologies aid in improving capture for beneficial use of landfill gas.

Renewable Energy Projects Operated by WM

- **1 of 20** landfill gas beneficial use projects operated by WM[2]
- **1 of 20** renewable natural gas facilities operated by WM[2]
- **2.2M MMBtu** of landfill gas converted to energy for sale/use annually in California

Leader in Beneficial Use of Landfill Gas in North America

- **58M+ MMBtu** of landfill gas converted to energy for sale/use in 2024[3]
- **150+** landfill gas beneficial use projects[2]
- **45%** landfill gas recovered for beneficial use in 2024
- **20+** renewable natural gas facilities[2]

Simi Valley Landfill & Recycling Center
Landfill Tour

Environmental education is important to the communities we serve. The Simi Valley Landfill and Recycling Center has been operating for more than 50 years and promotes many sustainable programs that encourage you to become better stewards of the environment.

What Am I Going To See?

- Learn how we are creating GREEN energy from landfill gas for the community.
- Get an up close look at the Organics and Construction & Demolition Recycling Facility.
- Visit the trash area and understand why we need think twice before we throw things away.
- Visit our certified Wildlife Habitat Conservation Programs – Barn Owls & Pollinator Garden.
- Recycling Education – Are you ready to test your knowledge of what can go in a recycling container?

Landfill Tour Information

Tours are available beginning in April through September on **Tuesday, Thursday, or Friday between 9:00 am to 2:00 pm** (last tour starts at 2:00 pm). Tours are approximately one (1) hour. WM can provide transportation if needed.

Please Remember! Arrive 15 minutes early to avoid delays, wear closed toe shows, and drinks/snacks ok on the bus.

The Simi Valley Landfill and Recycling Center has been a certified Wildlife Habitat since 2007 and in 2024 was awarded the Gold Certification by the Wildlife Habitat Council for WM's commitment to conservation.
