

TOP 5 Reasons to use the Smart Profile Process on wmsolutions.com

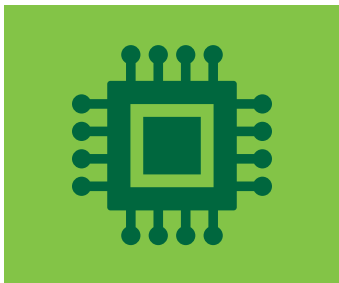

5. It's Fast & Efficient.

Because the Smart Profile Process only asks you questions specific to your materials, you have less questions to answer and your approval is faster, oftentimes before your very eyes. If you do not already have an e-signature, you can create one on the fly.

4. It's Professional.

Your profile information is typed rather than hand written thus your copy is always legible and available for sharing with others.

3. It's Electronic.

Using the Smart Profile Process, all of your information is captured so you need not be near a printer or fax machine to submit it.

2. It's Green.

The electronic process saves trees, ink, phone calls and postage. Your profile is always available in your online account as a draft, submitted or approved profile.

1. It's Easy.
