Woodside Landfill

Woodside Landfill is a regional facility that provides safe and convenient disposal services for communities, businesses and industries serving Livingston Parish and surrounding cities.

Waste Management’s approximately 300 disposal facilities employ the latest advances in landfill technology. This facility is engineered with environmental protection systems that meet or exceed rigorous government regulations and are subject to highly regulated monitoring and reporting requirements. Systems include engineered liners and covers, leachate collection and removal, and landfill gas collection and control.

**Containment Design**

Woodside Landfill utilizes a Subtitle D liner system featuring three feet of re-compacted clay, overlain with a 60 mil High Density Polyethylene (HDPE) synthetic liner.

**Leachate Collection & Treatment**

At Woodside Landfill, leachate managed using a drainage blanket with an automatic extraction system. Leachate is safely managed at the Walker Publicly Owned Treatment Works (POTW).

**Groundwater Monitoring**

Groundwater is monitored at 34 wells, both upgradient and downgradient of the waste disposal footprint. The groundwater monitoring network is sampled and analyzed semi-annually in accordance with the procedures of the facility’s groundwater sampling and analysis plan.

**Landfill Gas Management**

Woodside Landfill uses an active landfill gas collection system that consists of over 64 active gas extraction wells and an automated flare system.

**Security**

Site security is ensured by controlled, limited access to the facility and perimeter fencing. During non-business hours the gate is locked and monitored by electronic surveillance.

**WOODSIDE LANDFILL**

29340 Woodside Drive
Walker, LA 70785
800 963 4776

**HOURS OF OPERATION**

Monday – Friday: 5:30am – 5:00pm
Saturday: 7:00am – 12:00pm
Sunday: Closed
Can operate 24/7 with facility pre-approval

**YEAR OPENED**
1987

**PROJECTED LIFE REMAINING**
36 years

**FACILITY ACREAGE**
527 acres

**PERMITTED FOOTPRINT**
207 acres

**REMAINING PERMITTED CAPACITY**
34 million cubic yards

**TONS PROCESSED ANNUALLY**
800,000 tons

**OWNERSHIP**
Waste Management of Louisiana L.L.C.

**PERMIT TYPE & PERMIT #**
Solid Waste Permit P-0080R1

**REGULATORY AGENCIES**
Louisiana Department of Environmental Quality (LDEQ)

**EMPLOYEES**
30
Acceptable Material
Asbestos – Friable/Non-Friable
Auto Shredder Residue
Biosolids
Construction & Demolition (C&D) Debris
Drum Management – Liquids/Solids
Exploration & Production (E&P) Wastes
Industrial & Special Waste
Solidification
Municipal Solid Waste (MSW)
Tires – Quartered
Sludges
Yard Waste

Unacceptable Material
Appliances/White Goods
Batteries
CFC (Freon) Containing Items
Compressed Gas Cylinders
Regulated Radioactive Waste
Regulated Hazardous/PCB Waste
Tires – Whole
Untreated Medical Waste
Used or Recyclable Oil

Additional Services Provided
Cutting Boxes
Roll-Off Services
Tote Bins

Risk Mitigation
Waste Management provides the highest level of services, backed with state-of-the-art site design and management systems, to minimize risks and reduce liabilities.

Community Partnerships and Involvement
Woodside Landfill is proud to be an active supporter of community events and programs that make Livingston Parish a strong and healthy place to live, work and play.
